

HEED 3

HELICOPTER EMERGENCY EGRESS DEVICE

The Helicopter Emergency Egress Device 3 (HEED 3) manufactured by Submersible Systems is an updated version of the original HEED. A compact, lightweight and reliable self contained breathing apparatus, the HEED 3 is designed to increase the survivability of military and commercial personnel in short-term out-of-air emergencies.

- Provides lifesaving air needed to egress from a downed aircraft or a rolled vehicle in the water.
- Ideal for all helicopters, fixed wing aircraft, float planes, watercraft and vehicles that operate around possible water emergencies.
- Protects personnel from inhaling dangerous and lethal toxic fumes from fire or smoke.
- Simple, compact design is less complicated to use and repair than competing models.
- Always-on design is ready to deliver air when you need it.
- Refillable from an air compressor or scuba tank.
- Includes custom MOLLE holster to attach to a modular vest.
